

## Getting Together

## C. OF C. READY TO START FARM DEPT.

Holman Says Organization Wants to Help Farmers in Every Way.

Following the action of the Rock county, Secretary Baker, decided to abolish the office of county agricultural agent, the Janesville Chamber of Commerce is prepared to establish a special department in its organization for the benefit of the farmers of the county. A statement to this effect was made today by L. O. Holman, manager of the chamber, who was asked what reply the local commercial organization would make to the attacks made up to it by some of the supervisors at their session last week when it was declared by some supervisors that the local chamber "wants everything to go into its own pockets."

This department would be one whose purpose would be to bring about co-operation between the farmers of the city through the establishment of a headquarters in the chamber offices operated by a committee, all or a majority of the farmers of the county, the farmers might make their sales and purchases, stated Mr. Holman. He stated that it would not be necessary to take up the matter of crops or things of that kind from a theoretical or even a practical standpoint. The object of the department would be to render invaluable assistance in the promotion of the farmers' products.

Much Can Be Done. It needs but little consideration to demonstrate that a very considerable amount could be done in the promotion of Rock county's products. In Mr. Holman's opinion, "it is the duty of the chamber to combine themselves for the purpose of promotion. Neither does it need to be argued that it would be a benefit to the farmers of Rock county to have a central purchasing department with sufficient influence and co-operation to secure for the farmers the lowest prices for farm equipment and necessary supplies."

"It would be worth while for Rock county farmers to combine themselves for no other purpose than to buy and purchase such things as they need for their farms, and to do so while for them to associate themselves for the general promotion of their stock raising and agricultural interests, to say nothing of the promotion of good roads and other things."

Wants Farmers to Control. It is the desire of the Chamber of Commerce if any such organization can be accomplished, or such a department of the chamber of commerce, that the entire management and conduct of the plan be under the direction of a special committee composed of, or a majority of, farmers."

Mr. Holman stated that the chamber is ready to provide working space for such an organization of farmers if it is needed to replace the office of county agent recently abolished by the supervisors. The chamber would lead its every facility in forming the association.

"Regardless of whether the farmers of Rock county think kindly of this suggestion," said Mr. Holman, "the chamber of commerce desires to deny any statements that have been made that it is not thorough in its interest in the affairs and success of the farmers, or that it is in any way attempting to work to their disadvantage."

Not Knocking Farmers. "The Chamber of Commerce" is an institution, a service to the community as to anyone else. It is not lived and short-sighted in its policy, but it is to work against any and every effort to knock it down. It is not interested in progress only as Rock county can progress and that the progress of the commercial and industrial interests, as well as the farming interests, are all dependent upon the other."

"An invitation is extended to every farmer of Rock county to attend the meetings of the chamber of commerce and to the offices and to visit the chamber and to see for himself that it is working for his benefit and that it is willing to demonstrate its interest in his welfare."

In discussing the question of co-operation of the chamber of commerce with the farmers of the county, Mr. Holman recently stated that he has but little to say to a citizen who does not know of the past activities and shortcomings of the chamber.

Want Glaser Cooperation. "Whether the facts justify the statements that were made at the recent debate of the board of supervisors, I do not know," he commented. "However, in order that there may be no mistakes in the future as to what it is desired that the relation between the chamber and the farmers be, there ought to be and there is an unselfish desire on the part of the directors and the members of the Janesville chamber of commerce for closer co-operation between the interests of the city and those of the farmer. The chamber recognizes that cities could not exist in this nation without the agricultural industry."

"We are suffering today from our failure to appreciate the importance of agriculture in the economic success of our cities. All credit thinking men in Janesville, and indeed in every other industrial center of the country, are bending their energies toward finding the most effective method of providing an equal opportunity for the development of agriculture as well as industry."

Who may have failed in past years to realize that agriculture is our basic industry must certainly now admit the fallacy of his logic when he reads the recent census reports and learns that more than 50 percent of the population of the United States is in its cities."

Presses Most Important. "Statistics for a number of western states including Wisconsin indicate that from 50 to 80 percent of the goods sold in the cities are produced in the immediate rural regions and that in

## Sloan's Goes Right To The Aching Spot

You can just tell by its healthy, stimulating odor, that it is going to do you good.

THOUSANDS of men and women, when the least little rheumatic "crick" assails them, have Sloan's Liniment handy to knock it out. Liniment over a third of a century ago—far more popular today. That's because it is so wonderfully helpful in relieving external aches and pains—rheumatism, lumbago, backache, neuralgia, overstrained muscles, stiff joints, weather exposure, and all that is that is necessary. A little Sloan's Liniment rubs, and the sore spot, no muss, no stained skin.

All druggists—35c, 70c, \$1.40.

## TAXES AND TARIFF UP TO CONGRESS

May Not Act on Recommendations by President in His Message.

By DAVID LAWRENCE. (Copyright 1920 Janesville Daily Gazette.)

Washington, Nov. 30.—Congress gets back next week for its regular December session, but whether President Wilson will deliver his annual address in person, as he has done so many times before, or whether he will send it to be read by a clerk, or other presidents used to do, is still undetermined.

The president himself wants to make a farewell appearance at the capital and is said to be well enough to do so. Yet there is always a risk with one who has had a nervous breakdown that excitement might bring on a recurrence of the same trouble. Whether any decision has had to be made involving a risk of the president's health, his family have always played safe by avoiding the risk altogether. That's why it seems unlikely that Mr. Wilson will be there to see the new year in.

There are, on the other hand, those who think the president will stay until the close of the season in March and say goodbye then.

High Cost of Living. As to the contents of the presidential message which is being prepared, no inkling has been given. From a political viewpoint it is for no other purpose than to reduce the burden of taxes and also cut the cost of living. The course it is unlikely the majority in Congress will permit any action to be taken on the recommendations of a democratic president in three own president will take off his hat to the republicans of dilatory tactics and political expediency.

On the other hand, the republicans would counter with the question: Would President Wilson sign a bill which would raise the tariff on the proposed raising of revenue by the imposition of a protective tariff? White House officials who have been asked to answer this question have refused to do so. It is said that the tariff question has been disturbed by the fact that the republicans have indicated that they would be in a position to support a tariff bill which the republicans would put before him.

For a High Tariff. It would take practically all of a session of Congress and leaders of both sides agree that unless there was some assurance of the tariff bill, the tariff would be raised. But the republicans who want high protection care nothing about a compromise bill and without any influence from the tariff bill would be strongly protectionists. Even Warren Harding will have his troubles keeping the advocates of a high tariff from going to extremes. So the prospects of a compromise bill are brighter under the new republican administration than in the short session of Congress about to begin.

On the Tax Question. Practically the same situation exists with regard to taxes. Efforts will surely be made to get relief from tax burdens and it will be more difficult for the republicans to get the tax question passed, for instance, than the president will in his message take occasion to approve the suggestions made by Secretary Houston in his annual report of the treasury department. If these suggestions are adopted, the treasury department will be in the mess of questions sure to be too long delayed for or swallowed up in the most questions sure to be coming up in the extra session under the Harding administration.

December Income Taxes. Some definition of policy will be required from the republicans as soon as the session opens next week, for the pressure from all parts of the country seems to be growing for some kind of an emergency resolution to take care of the December payments of income taxes. The suggestion has been made that instead of adopting a policy which would enable the treasury department to exercise discretion as to the individual cases of firms absolutely needed, a postponement of a resolution adopted postponing the payment of all December taxes to February or March and rearranging the time of payment of 1921 taxes.

Take Whole Tax Question. The republicans would prefer to tackle the whole tax question afresh in the extra session of Congress, but they may be compelled to permit the treasury department to oppose the idea, but it is doubtful whether President Wilson would justify in exercising a veto if Congress took full responsibility for the postponement and the consequent effect upon the government's resources.

It is a three to one bet the average person cannot remember his automobile license number without referring to a memorandum.

Questions regarding license numbers on their autos were asked among citizens at the county court house, several on the advice of an attorney, a physician and three people in a drug store. Out of fifteen questions asked only four could repeat the license number without referring to the memorandum. One had even numbers to remember.

So it is a three to one bet the average man does not know his license number.

Two turkeys owned by Henry Kelm of the town of Rock, went to make up the main part of a Thanksgiving dinner for thieves autoists. Either by design of camouflage to escape both the turkeys and the thieves, as the ax the turkeys "roasted" in the family looking them over with a sinister look of appraising their food value and with watery mouths.

The turkeys became so affected by the family decided it might be unhealthful to eat them or sell to the public market. The birds, as usual, were placed in a farm yard while perched on a lower limb of a tree. This was their down-fall for while passing automobile and were stolen.

Someone else got a turkey free. The fowl addressed to 308 Jackson street didn't get there.

J. R. Jensen, who never shot a gun in his life and never hunted a deer before, sent a telegram from Lake Placid, N. Y., to his wife that he had got his buck. The Rotary Club is waiting to have a venison feast.

## BRINGING UP FATHER

## SAMSON AND "Y" PLAN ICE RINKS FOR THIS WINTER

That Janesville will have at least one skating rink appears to be assured from the activities of both the Samson Tractor company and the Y. M. C. A. Each is making preparations to get a sheet of ice ready for the lovers of the invigorating outdoor sport. Each is working independently from a different angle.

Under the management of George Perrier of the athletic department, steps are being made at the Y. M. C. A. to take some of the Samson land at Spring Brook along the water front and turn the river into it so that it will be flooded evenly. How soon this will be done awaits certain decisions that are to be made. If the plans consummate, a warming house will be erected along the shore and lights installed for the comfort of the skaters. A small fee will be charged to those who would like to skate.

The "Y" on the other hand has two places in mind and is ready to put the matter before the board of directors at a meeting to be held Wednesday. The plan there is to flood several lots to form an artificial pond and make it get out of the city. The big idea is to stage hockey games with a league to be formed here, and with teams to be brought from outside of the city. Y. M. C. A. has the plans under consideration. He has been assured of the cooperation of Perrier in conducting any hockey teams that are formed. A practice rink will be made on the "Y" tennis court on Milwaukee street, which also is to be used for the children.

## WELLING SUSPENDED YEAR FOR STALLING

Milwaukee, Nov. 30.—Joe Welling, Chicago boxer, was suspended from boxing for one year by the state boxing commission, after Referee Walter Houlihan and other witnesses testified that Welling had made no effort to do his best in a recent bout here with Lew Tender. Tommy Walsh, Welling's manager, admitted that his protegee had made a poor showing, but ascribed failure to get him to speed up to an injured hand, said to have been sustained by Welling in an early round.

**Gipp's Condition Reported to Be About the Same**

South Bend, Ind., Nov. 30.—The condition of George Gipp, Notre Dame football star, who is seriously ill of pneumonia, was reported unchanged today.

## CLEAN BOWLING IS INDUSTRIAL LEAGUE METHOD

Voting to hold to the original rule in the bi-laws of the organization that no bowler from a higher league may step down and become a member of the Industrial Bowling league of this city has taken this step to insure clean sport and to keep the circuit intact during these unsettled days when it is not known when one of their number may be forced to stop rolling because of changes in his working place. The matter was brought up through the use of a city league bowler by the Cadillac in last Friday's playing. In the decision, the Cadillac consented.

Because the decision leaves the Cadillac with four and possibly only three men and it is impossible for that team to come up to represent the Industrial Bowling league, the Cadillac's representation shall be from the firm represented, that rule was suspended and efforts are being made by the Industrial Bowling league to find other bowlers for the auto workers. The sportsmanship shown by the Cadillac has won high praise from the other members of the league.

So as to make these changes known to team members, Secretary of the Industrial Bowling league has sent to each team captain. There may be a brief delay in this because the league is now in a state of confusion.

Plans are now being made by the Industrial league to hold a banquet at the close of the bowling season. It is believed that such a plan will be a boon to the fellowship that is created by the great American game of ten pins.

## FEW CRACK TWIRLERS ENTER WORLD SERIES

The average fan wants to see the best of the pitching game work in the annual supremacy of the diamond. This desire is not always gratified. Many of the great crack twirlers have been out of the big show without getting an opportunity of participating in these classics.

On the days of old, such prodigies of the pitching game as Tom Runsey, Eddie Morris, Max Kilroy, Fred Shaw, Jimmy Gair, Guy Hake, Charles Ferguson, Charles Buffington, Gus Weyhing, "Xale" Bill Hutchinson, Tony Mullane, and the great Sweeney never had the opportunity to exhibit their skill in the big game. In recent years many great pitchers never had the opportunity to exhibit their skill in the big game. In recent years many great pitchers never had the opportunity to exhibit their skill in the big game.

## "HIPPO'S" WIFE GETS DIAMONDS BACK

Kenosha, Nov. 30.—Divorce proceedings brought against "Hippo" (Vernon) Vaughn, his wife, Edna, were dismissed by the circuit court of Kenosha Monday.

The \$10,000 diamonds which are said to have started the matrimonial difficulties of the Vaughns and which have been in the care of the court pending settlement of the case, were returned to Mrs. Vaughn.

The dismissal of the case is taken as evidence of a complete reconciliation of the couple. "Hippo," who recently was stabbed by his father-in-law, Harry De Boid, is still in the hospital. Physicians state his condition is satisfactory.

## STATE HIGH SCHOOL TITLE GAME IS OFF

Green Bay, Wis., Nov. 30.—Superior high school of Superior refused to play the East high school of this city for the state football championship. Negotiations had been started when East high defeated Appleton two weeks ago. According to phone conversations with Superior the game was called off because of lack of interest.

John Dalton, Janesville, is coach of the Green Bay East high school team.

## STUNG, SAYS WILIE, AND BUTTONS SHIRT

Billy Phyle, Coast league umpire, tells the funniest tale he saw this season.

Vernon was playing Oakland at Oakland and the Tigers were leading by many runs in the ninth. Five batters were scheduled to go to the plate before Denny Wille, Oakland right fielder, so he ran to the clubhouse and started addressing two Oakland players were put out but three men got on base.

A player ran to the clubhouse and informed Wille of the situation. In a minute and a half he was on his way to the plate, buttoning his blouse and cursing a blue streak.

"I'll make this pitcher sick," growled Wille to Phyle.

At this point Bobby Fisher pulled the hidden ball trick on the runner at second and then Wille exploded.

## DEMPSEY IS SHARKEY'S SPARRING PARTNER

New York, Nov. 30.—Jack Dempsey, world's heavyweight boxing champion, is acting as sparring partner to Jack Sharkey, local banam-weight, in preparation for the latter's bout here next Thursday with Joe Lynch.

Dempsey has commenced daily workouts for his bout with Bill Brennan here on December 14.

## Pennsylvania to Stop Up in 1921 Football Schedule

Philadelphia, Pa., Nov. 30.—Pennsylvania's football schedule next season must be more reasonable. The result of the Dartmouth game has just about proven to the University of Pennsylvania football authorities that next season a schedule must be arranged that will not be so hard.

## FIGHT DECISIONS

Atlanta.—Jack Britton, welterweight champion of the world, was awarded the referee's decision at the end of a ten round bout with Jake Abel, Atlanta welterweight.

Bud Christiano shaded Otto Wallace in 10 rounds according to newsman Jimmy Muzzey shaded Sammy Stearns in eight; Tom Carney knocked out Fred Williams in one stanza; and Battling Boy stopped Tootie Scaler in two rounds, last night.

## BRITTON TO STACK AGAINST P. MITCHELL MILWAUKEE, DEC. 6

For the first time in many moons a world's champion will make his appearance in Milwaukee ring when on December 6 Jack Britton of Chicago stacks up against Pinky Mitchell before the Cream City A. C. at the Auditorium. It will be Pinky's first appearance as a welterweight and against a champion at that, but there are many of the boxing fans who have always felt that Mitchell would be better off fighting as a welterweight than a lightweight. The youngest member of the Mitchell family of boxers is nearly six feet tall, which is something unusual in a lightweight. He will have an advantage in height over Britton, but there will be little difference in their weight.

Britton is a veteran at the game and has done what few others have accomplished in the boxing line—won back his title after having lost it. Ted Lewis is the man who once took away his title, but Britton preserved until he got a return match and defeated the ex-Briton. Jack is a product of the Chicago north side and has many good friends there who will be anxious to see him perform near his home town. He has had little chance to show himself to Chicago fans because of the lid being on in the Windy City.

**Will Pinky Succeed?**

The fans are asking the question now—will there be a new champion in the welterweight class after December 6? Mitchell has the chance of the same as others, but will succeed where others have failed.

As a star bout to the Britton-Mitchell affair the Cream City A. C. has arranged a ten round semi-final between Jimmy Muzzey, a Milwaukee lad who has been coming along fine, and Fred Jackson, former English featherweight of considerable class and now of New York. Jackson is no false alarm for he has had some tough fights in the east the past year, meeting boys like Benny Valgren, meeting Lawler, Frankie Rice, Andy Chaney, Harry Carlson and others. Jackson is really a featherweight in the European weighing which der 128 pounds. Muzzey has shown real class in his recent matches.

## Larsen of Minneapolis Captain of Navy Eleven

Annapolis, Md., Nov. 30.—Members of the Naval Academy football team have named Emory E. Larsen of Minneapolis, captain for the coming year. The election was made on the train coming to Annapolis from West Point.

## Williams, Knapp and Sundt, Wisconsin Basketball Cracks

Madison, Nov. 30.—The University of Wisconsin basketball squad went on the floor Monday for the first official practice of the year, a well conditioned quintet with nearly two months of steady practice and training behind it. **Team Is Doubtful**

The coach, however, and his players are not expecting that they will enter the series of games as the strongest contender for the title honors. Wisconsin has fair material, the coach says. Although the men are hard workers and hard fighters, it is said to be doubtful whether the Wisconsin team will capture the championship.

From the beginning of practice, it has been a problem of teaching basketball from its foundation to the men who were trained in a different system of play. It is explained that as a result any degree of perfection is impossible. Football players who are varsity basketball men reported for the first time Monday, and still have the initial development stage to go through.

The Badgers came through last year with seven victories out of twelve conference games, and six men from that team are on the roster this year. The freshmen have added several promising players.

**Taylor In Trim**

A squad of 65 reported at the opening of the season. Culling has reduced this number to eleven basketball and six football men. From those 17 players the coach will select the five men who are to represent the university.

Carl E. Casner of Boise, Idaho, and Allard C. Fugner of Rhinelander are the two regular guards of last season who are practically assured of berths on the team. Those two men are the nucleus of the team. The election was made on the train coming to Annapolis from West Point.

**Schedule Opens Saturday**

With this line-up the coach has worked to develop a team able to take the floor against experienced Big Ten teams who have lost one or two men through graduation. Illinois is said to be the strongest contender for the championship.

The preliminary schedule of Wisconsin opens December 4 against Ripon. There follow a succession of games: December 7, River Falls Normal; December 10, Knox college; December 13, open date; December 16, LaCrosse Normal; December 18, Marquette or Milwaukee Normal; and December 29 and 30, South Dakota University, if arrangements can be made.

The first conference game is held January 30 against Northwestern.

## DEMPSEY-CARP BOUT MAY GO OUT OF U. S. ACCORDING TO REPORT

New York, Nov. 30.—In the event that no suitable place can be found in this country to hold the forthcoming heavyweigh boxing championship bout between Jack Dempsey, world's champion, and Georges Carpentier, European titleholder, the contest may be staged in England, it was reported in generally well informed circles here today.

The promoters are known to have held conferences on the choice of a battle ground within the past few days, and it was intimated today that an official announcement may be made within a short time.

Neither Tex Rickard, one of the trio of promoters, nor Jack Kearns, Dempsey's manager, would admit that negotiations had been started to hold the contest abroad, but pressed antipathy to going outside the United States had been virtually overcome.

The proposition to shift the fight abroad was said to have been prompted by coldness exhibited by members of the state boxing commission toward holding it in this state. It was admitted that Charles E. Cochran, the English promoter, is tentatively negotiating for a suitable site near London in case plans to hold it in this country are not consummated.

## Cadet Green to Lead West Point 1921 Team

West Point, N. Y., Nov. 30.—Cadet Francis Martin Green of Poughkeepsie, N. Y., has been elected captain of the Army football team for next season. Green has just finished this second season as center on the Army eleven. He is a member of the class of 1922.

## Ski-Jumping at the University

Madison, Wis.—Ski jumping made prominent as a winter sport last year by Norwegian students, will receive an impetus at the University of Wisconsin by the construction this winter of a 40 foot jump. Fifteen men here from Norway have already started work on the structure that will be the scene of the jumping feats.

While there is little prospect that ski-jumping will be made a minor sport at the university, regular meetings are planned with other schools. Last winter Minnesota sent down her jumpers only to have them outdistance by the Wisconsin men. It is probable that a similar contest will be held this year.

Interest of the student body has been stimulated by the advent of the ski-jumpers. Not only did large groups of students turn out to the exhibits, but a number of them took up the sport, with what are said to be satisfactory results.

A snow is now awaited to put the slide, which will soon be completed, in condition for use.

## CHICAGO MEN LEAD MIDWEST PIN TOURNEY

St. Louis, Mo., Nov. 30.—The twelfth round of the Midwest Bowling tournament was held here today, with a card composed almost entirely of local entries.

After the shooting had taken a general upward trend, the localists slumped yesterday, leaving the lead of the Chicago bowlers undisturbed in all divisions.

The high men are Florry Luby, singles, 657; Joe Hradek and Joe Pilger, doubles, 1208; E. J. Kelly, all-events, 1766, and for the five-men teams, A. H. Arnold and Brothers, 2423.

All of these marks are below the Midwest record.

More than 120 entrants were listed in today's matches.
